This meeting is to discuss the petition ATSDR recently received from two groups, Don't Waste Arizona and Save Tonopah Oppose Poultry Plan (STOPP), to conduct a public health assessment of ammonia emissions from Hickman's Egg Farms facilities in Tonopah and Arlington, Arizona. The Arlington School Board also sent us a letter supporting the petition. We are in the process of reviewing the petition and gathering additional information to help ATSDR decide whether or not to conduct public health assessment activities. During this meeting, I hope to gain a better understanding for EPA activities related to Hickman's.

Please let me know if the proposed time doesn't work for you.

Thanks

Ben
